We are more than just Machinery.....

Below is just a selection of the products & services we can offer,
for full details please see our website www.tkmr.co.uk

If we are unable to source any products/services from our suppliers direct we are part of buying groups that we can approach. Please do contact Steve or Camilla for more information.

We would like to invite all TKMR Members to the
TKMR Hybrid Annual General Meeting
on Wednesday 4th May 2022

6.30pm at TKMR Offices, Stanmore, RG20 8SR and on Zoom
Refreshments will be available after the AGM

To confirm your attendance please email office@tkmr.co.uk by Monday 25th April
Accounts and AGM Agenda will be sent out on email to all members in due course.

Crop Cooling Systems

The tough grain cooling pedestal

- A vertically standing, crop cooling and conditioning system.
- Draws heat out of floor stored crops, helping to maintain crop quality and price.
- Cost effective and flexible solution that ensures crops stay free from moulds and insects.

Stronger by Design

- Recommended for small seeds like Oil Seed Rape.
- No need to have an additional filter for small seeds.
- Louvred slots are less likely to block so equal air distribution is maintained through the crop.

VBW Grain Ventilation Fans

- UK Manufactured, built to last.
 - Cast Aluminium Case
 - Pressed Steel Impeller
 - Thermal Overload
 - Class leading air flow
- VBW fans used on UK farms for 50 years.
- Used in grain stores worldwide.

Red Diesel reform and other rebated fuels – Are you ready for the change??

From 1 April 2022 the law will change so that rebated fuel use is limited to certain types of vehicles, machines, and appliances when the fuel is used for specific purposes only. These include:

- for vehicles and machinery used in agriculture, horticulture, fish farming and forestry. This includes allowing vehicles used for agriculture to be used for cutting verges and hedges, snow clearance and gritting roads
- to propel passenger, freight or maintenance vehicles designed to run on rail tracks
- for heating and electricity generation in non-commercial premises - this includes the heating of homes and buildings such as places of worship, hospitals and townhalls; off-grid power generation; and non-propulsion uses on permanently-moored houseboats
- for maintaining community amateur sports clubs as well as golf courses (including activities such as ground maintenance, and the heating and lighting of clubhouses, changing rooms etc.)
- as fuel for all marine craft refuelling and operating in the UK (including fishing and water freight industries), except for propelling private pleasure craft in Northern Ireland
- for powering the machinery (including caravans) of travelling fairs and circuses

The measure will also extend fuel duty to biodiesel, bioblends and fuel substitutes used in heating, applying the rebated duty rate to non-commercial heating and the full rate of duty to commercial heating. The legislation will provide for secondary legislation to enable HMRC to disapply its powers to seize vehicles or other machinery in certain circumstances.

For more information please visit - <https://www.gov.uk/government/publications/reform-of-red-diesel-entitlements/reform-of-red-diesel-and-other-rebated-fuels-entitlement>
