Do you have either unmanaged woodland or who would like to plant new woodland?

A TKMR Member is a Grown In Britain Expert Provider for the PIES (Protect, Improve, Expand Sustain) project, who are offering free of charge woodland assessments and recommendations to bring woodland of all ages back into management to landowners across England, supporting them in planning to comply with the UK Forestry Standard, achieving Grown in Britain certification, and improving access to the Woodland Carbon Code. Landowners taking part in the project will receive subsidised support, including one-to-one advice with ongoing online support and technical services.

If you would like any further advice please visit https://sylva.org.uk/initiatives/pies/ or contact Steve or Camilla in the Ring office who will put you in touch with them.
