HMRC reversing plans for double cap pick ups

Earlier this month, HMRC issued new guidance about the tax treatment of double-cab pickups. In welcome news for rural users of double cab pickups, they announced the new guidance will now not be implemented. Previously, all double-cab pickups ordered from 1st July 2024 were going to be classed as cars, not goods vehicles.

The outcry from farmers and the motoring industry on the impact of these changes, has resulted in HMRC doing a u-turn on its plans. Double cab pickups will continue to be treated as goods vehicles for tax purposes.

For more information on the announcement CLICK HERE
