Scottish and Southern Energy

The Energy Networks Asssociation have produced various information guidelines for Farmers and Agricultural Contractors when operating machinery near or under overhead powerlines.

At this busy time of year it is imperative that all operators of machinery know the safety aspects of driving near power lines and how to get out of a machine safely should a powerline fall on your machine.

Hedge plants

Hedges have huge benefits: conservation corridors, a welcome habitat for wildlife, shade and shelter for farm livestock, division between fields, and much more. Now is the time to plant any new hedges and TKMR can source competitive quotes for a variety of hedge plants.

For a quote please contact Steve or Camilla in the Ring Office.
